

DREDGE, DOCK, & SHIPYARD INDUSTRIES

Solutions for Dredge, Dock, and Shipyard since 1987. These industries require specialized rubber products suitable for these unique applications. At Seals Unlimited, our technical knowledge and fabrication expertise, coupled with years of experience in these industries, provides customers with products that perform.

Custom Extrusions

Quick and cost-effective. Our in-house die shop reduces lead times and set-up fees. We can also reduce fabrication time by performing hot vulcanized splices either in-house or on site.
